READY·TO·USE THEMATIC BORDERS

ED SIBBETT, JR.

Thematic borders are among the most versatile and useful components in the whole of graphic design. They lend a note of completeness and overall unity to any visual display. But, until now, no really good collection of affordable, immediately usable, copyright-free thematic borders existed for the use of today's graphic designers and artists.

This highly useful collection offers a multiplicity of beautiful and practical thematic borders, including: flowing ribbons in delicate folds; baskets of fruit and bountiful harvests; fish, fowl, and simmering pots in delectable culinary motifs; candy canes and candles, yuletide stockings, jingle bells and holly wreaths; pens, pencils and an apple a day for those back-to-school days; party hats and noise makers, starry nights, candle-glow and gifts; fascinating configurations of the most popular word in all of advertising: *SALE*; and much more. Perfect for year-round use as well as seasonal displays such as Christmas, birthdays, Thanksgiving, New Year's, harvest time, Valentine's Day, springtime, back-to-school, and more.

All illustrations are directly and immediately usable without statting. These are copyright-free designs and can be used *without* written permission from the publisher. Printed in crisp, black-and-white images on glossy repro-quality paper, these are borders that can be used now and in future graphic projects.

Original Dover (1982) publication. 64pp. printed one side only. 8¼ x 11. Paperbound.
